

Maritime Network Frederikshavn

Service at the Gate to the Baltic

Frederikshavn Maritime Network provides quality ship repair and services. Our range of expertise encompasses everything from routine maintenance and damage repair to major overhauls and modernization.

Our ultimate goal is to provide a high-quality service at the time promised - and at the agreed price.

Frederikshavn is an obvious choice when making plans for operation and maintenance. Not just because of its central location at the gate to the Baltic next to the Skaw.

Even when berthed, you will continue to find everything to your satisfaction. Within the port area or in the immediate vicinity, all forms of repair and service are available. And the crew will appreciate the fact that the town's lively centre is no more than five minute's walk from the port.

■ Shipbroker • Agent • Oil specialists • Cruise specialists • STS • Passage service • All Baltic and Scandinavian ports

The service is excellent in Frederikshavn – even for ships not calling the port.

We know that deviation costs time and money. Maritime Network Frederikshavn offers a comprehensive range of services for ships passing off Frederikshavn. Service is also provided to anchored ships performing STS operations off Frederikshavn Roads.

Our Passage Service can include almost everything. Repair technicians, medical attention, supply of stores and provisions, and crewchange.

Crewchange is convenient at Frederikshavn with its good flight-, road- and ferry connections. The town's maritime training institutions offer safety and in-service training courses for incoming or outgoing crew, thus saving time and making planning easier.
